## INDEPENDENT AUDITORS' REPORT

Board of Selectmen<br>Town of Bristol<br>P.O. Box 339<br>Bristol, Maine 04539

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Town of Bristol, as of and for the years ended December 31, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the Table of Contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Town of Bristol as of December 31, 2015 and 2014, and the respective changes in financial position, and where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Management's Discussion and Analysis <br> Fiscal Year Ended December 31, 2015

The Municipal Officers of the Town of Bristol, Maine offer the readers of Bristol's financial statements this narrative overview and analysis of its financial activities for the fiscal year ended December 31, 2015. We encourage readers to consider the information presented in conjunction with additional information furnished in the basic financial statements and the accompanying notes to those financial statements.

## The Financial Statements

The financial statements presented herein include all activities of the Town of Bristol, Maine using the integrated approach as prescribed by GASB (Governmental Accounting Standards Board) Statement No. 34. The government-wide financial statements present the financial picture of the Town using the accrual basis of accounting. They present governmental activities (functions that are principally supported by taxes and intergovernmental revenues) and business-type activities (functions that are intended to recover all or a significant portion of their costs through user fees and charges) separately. These statements include all assets of the Town as well as all liabilities, including long-term debt.

The fund financial statements include statements for each of the three categories of activity: governmental, business-type and fiduciary. Notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## Statement of Net Assets and Statement of Activities

The statement of net assets and statement of activities report information about the Town and its activities as a whole. Excluding infrastructure, these statements include all assets and liabilities of the Town using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's net assets and changes in them. Net assets are the difference between assets and liabilities, which is one way to measure the Town's financial health or financial position. Over time, increases and decreases in net assets are one indicator of whether the Town's financial health is improving or deteriorating. Other factors to consider are changes in the Town's property tax base and the condition of its infrastructure. In the statement of net assets and statement of activities, the Town's activities are separated as follows:

Governmental activities: Most of the Town's basic services are reported in this category, including public safety, public works, and general administrative services. Property taxes, excise taxes, user fees, interest income, cable television franchise fees and State and Federal grants finance these activities.

Business-type activities: Parks and Recreation is considered a "business-type" activity. A fee is charged to visitors to cover costs associated with admission to and use of Bristol's parks. Parks and Recreation is completely self-supporting through admissions, rental income and other user fees and donations.

## Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds, not the Town as a whole. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Some funds are required to be established by State law or by grantor. In the Town of Bristol, these include worthy poor funds, cemetery funds and a small fund set aside for maintenance of the Rock Schoolhouse. Management, however, establishes other funds to help it control and manage money for particular purposes. During fiscal year 2015 Bristol had thirteen "capital reserve" accounts: the Bridge Fund, the Building Fund, the Computer Fund, the Fish Ladder Fund, the Highway Equipment Fund, the Landings and Harbors Fund, the Olde Bristol Days Fund, the Revaluation Fund, the Parks Fund, the Learning Center Fund, the School HVAC Fund, the Fire Truck Fund and the Facility Maintenance Fund which offsets capital expenditures for Bristol's three fire stations.

## Governmental Funds

Most of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the remaining balances at year end that are available for spending. These funds are reported using an accounting method called "modified accrual", which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed, shorter-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. The Town's governmental funds consist of the following:

General Fund: The general operating fund of the Town used to account for all financial resources except those required to be accounted for in another fund.

Proprietary Funds: When the Town charges customers for services it provides (business-type activities), these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and Statement of Activities.

Fiduciary Funds: The Town's fiduciary funds are held in trust for the benefit of others. These funds are not included in the government-wide financial statements and cannot be used to support general government activities and operations.

## Governmental Activities

The cost of all governmental activities in 2015 was $\$ 7,570,800.65$, an increase of $\$ 113,133.15$ in comparison to 2014. Some of the costs were paid by those who directly benefited from the programs, or by other governments and organizations that subsidized certain programs with operating grants and contributions. The Town paid for the "public benefit" portion of governmental activities with property taxes and through additional sources such as excise tax, interest revenue, State revenue sharing, cable television franchise fees and other miscellaneous revenues.

Town programs include education, general government, health and welfare, highways and bridges, protection, special assessments (County tax), and unclassified. Each program's net cost (total cost less revenues generated by activities) is presented below. The net costs show the financial burden placed on the Town's taxpayers by each of the functions:

| Governmental Activities | Net Cost 2015 | Net Cost 2014 | Net Cost 2013 |
| :---: | :---: | :---: | :---: |
| Education | \$4,293,627.41 | \$4,359,899.82 | \$4,005,296.37 |
| General Government | 513,872.70 | 471,234.80 | 649,579.60 |
| Health and Welfare | 298,857.99 | 279,590.88 | 276,802.63 |
| Highways and Bridges | 889,852.13 | 841,634.01 | 909,862.17 |
| Protection | 358,649.53 | 334,430.11 | 816,348.42 |
| County Tax | 1,173,094.24 | 1,136,243.47 | 1,224,272.56 |
| Unclassified | 42,846.65 | 34,634.41 | 45,687.71 |
| Total: | \$7,570,800.65 | \$7,457,667.50 | \$7,927,849.46 |

On December 31, 2015, Bristol's net position for governmental activities totaled $\$ 9,540,057.44$. Net assets as of December 31, 2014 were $\$ 9,103,332.82$. The result is an increase in net assets of $\$ 436,724.62$ during fiscal year 2015.

## Business-Type Activities

The cost of the Town's only proprietary fund, Bristol Parks and Recreation, was $\$ 304,999.50$. The amount paid by users of the system and raised through donations was $\$ 313,424.46$, resulting in a net gain of \$8,424.96.

## Budgets and Budgetary Accounting

The breakdown of actual expenditures for the year may be found in the Selectmen's Financial Report which is part of the 2015 Annual Report of the Town of Bristol. This could be compared with the proposed budget for 2016 to ascertain potential increases or decreases in individual budgetary items.

## Administrative Notes

Bristol had four outstanding loans at the end of fiscal year 2015: a bond for school renovations which matures in 2018, a loan for the Partridge Bridge which matures in 2017, and two fire truck loans maturing in 2018 and 2023. The following is a comparison of total long-term debt as of December $31^{\text {st }}$ of each fiscal year:

FY 2015
\$ 552,936.57
FY 2014
\$ 734,647.60
FY 2013
\$ 910,576.99

There was an increase in the County tax assessment as compared with fiscal year 2014.

| FY 2015 | FY 2014 | FY 2013 |
| :---: | :---: | :---: |
| $\$ 1,173,094.24$ | $\$ 1,136,243.47$ | $\$ 1,224,272.56$ |

There was an increase in unappropriated surplus as compared with fiscal year 2014.

FY 2015
\$986,212.63
FY 2014
$\$ 985,190.48$
FY 2013
\$968,129.71

The mill rate increased from 7.70 per $\$ 1,000.00$ of valuation in fiscal year 2013 and 7.90 per $\$ 1,000.00$ of valuation in fiscal year 2014 to 8.45 per $\$ 1,000.00$ of valuation in fiscal year 2015.

Education accounted for approximately $66 \%$ of the tax commitment followed by the County tax assessment at $18 \%$ and the Municipal budget at $16 \%$.

Bristol's financial position continues to be exemplary. The Municipal Officers continue to pursue ways to lower the cost of providing essential services to Bristol's taxpayers while preparing for demands on infrastructure, increasing cost of education, the County tax commitment, decreased State revenues, and State and Federal mandates.

Other Purposes (Schedule A-4)
Unassigned (Schedule A-3)
Total Governmental Fund Balances (Exhibit F)

Amounts reported for governmental activities in the
Statements of Net Position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds

Deferred outflows are deferred as expense in the fund financial statements and in the government-wide financial statements as expense in the year following the year paid.

Property taxes not collected within 60 days after year end are deferred as revenue in the fund financial statements. In the government-wide financial statements the revenue is income in the year assessed.

Pension liability is not due and payable in the current period and therefore is not reported in the funds.

Notes payable are not due and payable in the current period and therefore are not reported in the funds.

Deferred inflows are deferred revenues related to pension expenses that are amortized in the government-wide financial statements.

## TOWN OF BRISTOL NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies of the Town of Bristol conform to generally accepted accounting principles as applicable to governmental units.

1. Financial Reporting Entity

The Town of Bristol was incorporated in 1765. The Town operates under a town meeting form of government.

In evaluating the Town of Bristol as a reporting entity, management has addressed all potential component units. The primary criteria for including a component reporting entity are the exercise of financial accountability by the Town of Bristol's municipal officials.

The Town's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is responsible for establishing Generally Accepted Accounting Principles (GAAP) for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established in GAAP are used by the Town as discussed below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. Certain significant changes in the Statement include the following:
1.) Financial statements now include:

- A Management's Discussion and Analysis (MD\&A) section providing an analysis of the Town's overall financial position and results of operations.
- Financial statements prepared using full accrual accounting for all of the Town's activities, including infrastructure (roads, bridges, etc.).
2.) A change in the fund financial statements to focus on the major funds.

2. Basic Financial Statements - Government-Wide Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds). Both the government-wide and fund financial statements categorize primary activities as governmental. The Town's fire protection, recreation, public works, and general administrative services are classified as governmental activities.

In the government-wide Statements of Net Position, the governmental column is presented on a consolidated basis by column, and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position is reported in three parts - net invested in capital assets; restricted; and unrestricted. The Town first utilizes restricted resources to finance qualifying activities.

## TOWN OF BRISTOL NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

2. Basic Financial Statements - Government-Wide Statements (Cont'd)

The government-wide Statements of Activities reports both the gross and net cost of each of the Town's functions and business-type activities (fire, public works, administrative, etc.). The functions are also supported by general government revenues (property, certain intergovernmental revenues, fines, permits, and charges, etc.). The Statements of Activities reduces gross expenses (including depreciation) by related program revenues and operating and capital grants. Program revenues must be directly associated with the function (fire, public works, etc.). Operating grants include operatingspecific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property, intergovernmental revenues, interest income, etc.).

This government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.
3. Basic Financial Statements - Fund Financial Statements

The financial transactions of the Town are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Town:
a. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

1. General Fund:

General Fund is the general operating fund of the town. It is used to account for all financial resources except those required to be accounted for in another fund.
2. Capital Projects:

Capital Projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment.
3. Fiduciary Funds:

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support town programs. The reporting focus is on net assets and changes in net assets and is reported using accounting principles similar to proprietary funds.

TOWN OF BRISTOL
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT’D):

3. Basic Financial Statements - Fund Financial Statements (Cont'd)
a. Governmental Funds (cont'd):
4. Fiduciary Funds (cont'd):

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASB No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category) for the determination of major funds.

The Town's fiduciary funds are presented in the fiduciary fund financial statements. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

## 4. Proprietary Fund:

The Proprietary Fund is the fund used to account for all financial resources relating to the Parks and Recreation Department. The generally accepted accounting principles applicable are those similar to business in the private sector.

## 4. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied:
a. Accrual:

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.
b. Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e. both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

# TOWN OF BRISTOL NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT’D):

5. Financial Statement Amounts
a. Cash and Cash Equivalents:

The Town has defined cash and cash equivalents to include cash on hand, demand deposits, and cash with fiscal agents. Statutes authorize the Treasurer of the Town, as directed by the municipal officers, to invest all municipal funds, including reserve and trust funds, to the extent that the terms of the instrument, order, or article creating the fund do not prohibit the investment in financial institutions as described in Section 5706 MRSA and securities as described in Sections 5711 through 5717 MRSA.
b. Capital Assets:

Capital assets purchased or acquired with an original cost of $\$ 2,000.00$ or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straightline basis over the following estimated useful lives:

| Buildings | $20-50$ Years |
| :--- | ---: |
| Machinery and Equipment | $5-10$ Years |
| Improvements | $10-20$ Years |
| Other Infrastructure | $10-50$ Years |

c. Revenues:

Substantially, all governmental fund revenues are accrued. Property taxes are billed and collected within the same period in which the taxes are levied. In applying GASB No. 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.
d. Expenditures:

Expenditures are recognized when the related fund liability is incurred.
e. Deferred Inflows and Outflows of Resources:

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until that time. The deferred outflows relate to the net pension liability, which include the Town's contributions subsequent to the measurement date, which is recognized as a reduction of the net pension liability in the subsequent year. They also include changes in assumptions, differences between expected and actual experience, and changes in proportion and differences between Town contributions and proportionate share of contributions, which are deferred and amortized over the average expected remaining service lives of active and inactive members in the plan.

TOWN OF BRISTOL NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT’D):

## 5. Financial Statement Amounts (Cont'd)

e. Deferred Inflows and Outflows of Resources (cont'd):

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The deferred inflows relate to the net pension liability, which include the differences between expected and actual experience and changes in proportion and differences between Town contributions and proportionate share of contributions, which is deferred and amortized over the average expected remaining service lives of active and inactive members in the plan. They also include the net difference between projected and actual earnings on pension plan investments, which is deferred and amortized over a five-year period.
f. Use of Estimates:

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## NOTE B - CASH:

## Cash

The Town's cash is categorized to give an indication of the level of risk assumed by the Town at year end. These Categories are defined as follows:

Category \#1 - Insured or collateralized with securities held by the Town or by its agent in the Town's name.
Category \#2 - Collateralized with securities held by the pledging financial institution's trust department or agent in the Town's name.

Category \#3 - Uncollateralized (This includes any bank balance that is collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the Town's name.)

At December 31, 2015 cash consisted of:

|  | CARRYING | BANK | CATEGORY |  |  |

## NOTE E - GENERAL FUND BUDGET:

The Town operates on a net budget as compared with a gross budget. All revenues are not estimated, but are credited to the particular operating account. Certain revenues are dedicated for particular purposes by vote of the townspeople at the annual town meeting or at special town meetings.

At the annual town meeting, held in March of each year, the townspeople vote on various articles on which amounts for appropriations have been recommended by the Board of Selectmen and/or the budget committee.

## TOWN OF BRISTOL NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

## NOTE F - ASSIGNED FOR OTHER PURPOSES:

Historically, the townspeople vote to carry certain departmental unexpended balances forward to the following year for expenditure. This is usually in lieu of additional appropriations in any particular account.

| General Government | $39,955.59$ |
| :--- | ---: |
| Education | $1,112,404.99$ |
| Highways and Bridges | $16,847.19$ |
| Protection | $7,473.21$ |
|  | $\underline{\$ 1,176,680.98}$ |
|  |  |

## NOTE G - REVENUE RECOGNITION - PROPERTY TAXES:

The Town's property tax for the current year was levied June 5, 2015 on the assessed value listed as of April 1, 2015 for all taxable real and personal property located in the Town. Taxes were due September 15, 2015 with interest at 7\% per annum or part thereof commencing September 16, 2015.

Tax liens are filed against delinquent real estate taxpayers after eight months but within one year of the original tax commitment. If the tax, interest, and costs have not been paid eighteen months after the filing of a lien certificate then the lien is automatically foreclosed.

The National Council on Governmental Accounting (N.C.G.A.) Interpretation No. 3 requires that property tax revenue be recognized only to the extent it will be collected within sixty days following the year end. The deferred tax revenue shown on the balance sheet represents property taxes not expected to be collected within sixty days after the year end.

Property taxes are recognized when they become available. Available includes those taxes expected to be collected within sixty days after year end as stated above.

## NOTE H - MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM:

## Summary of Significant Accounting Policies

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows for resources related to pensions, and pension expense, information about the fiduciary net position of the Maine Public Employees Retirement System State Employee and Teacher Plan (SETP Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## Maine Public Employees Retirement System

## General Information about the Pension Plan

Plan Description - Teaching-certified employees of the Town of Bristol are provided with pensions through the Maine Public Employees Retirement System State Employee and Teacher Plan (SETP Plan), cost-sharing multiple-employer defined benefit pension plans, administered by the Maine Public Employees Retirement System (MPERS). Benefit terms are established in Maine statute. MPERS issues a publicly available financial report that can be obtained at www.mainepers.org.

## TOWN OF BRISTOL NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

## NOTE H - MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM (CONT’D):

Benefits provided - The SETP Plan provide defined retirement benefits based on members' average final compensation and service credit earned as of retirement. Vesting (i.e. eligibility for benefits upon reaching qualification) occurs upon the earning of five years of service credit. In some cases, vesting occurs on the earning of one year of service credit immediately preceding retirement at or after normal retirement age. For SETP members, normal retirement age is 60,62 , or 65 . The normal retirement age is determined by whether a member had met certain creditable service requirements on specific dates, as established by statute. The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years of service credit is reduced by a statutorily prescribed factor for each year of age that a member is below her/his normal retirement age at retirement. MPERS also provides disability and death benefits, which are established by statute.

Contributions - Employee contribution rates are defined by law or Board rule and depend on the terms of the plan under which an employee is covered. Employer contributions are determined by actuarial valuations. The contractually required contribution rates are actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

SETP Plan - Maine statute requires the State to contribute a portion of the Town's contractually required contributions. Employees are required to contribute $7.65 \%$ of their annual pay. The Town of Bristol's contractually required contribution rate for the year ended December 31, 2015, was between $13.38 \%$ and $15.68 \%$ of annual payroll of which between $2.65 \%$ and $3.36 \%$ of payroll was required from the Town and $\$ 187,542.78$ was required from the State. Contributions to pension plan from the Town was $\$ 42,333.80$ for the year ended December 31, 2015.

## Pension Liabilities, Pension Expense, and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

The net pension liabilities were measured as of June 30, 2014 and the total pension liabilities used to calculate the net pension liabilities were determined by actuarial valuations as of that date. The Town's proportion of the net pension liabilities were based on projections of the Town's long-term share of contributions to the pension plans relative to the projected contributions of all participating School Administrative Units and the State (SETP Plan), actuarially determined.

SETP Plan - At June 30, 2014, the Town reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the Town. The amount recognized by the Town as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the Town were as follows:
Town of Bristol's Proportionate Share of the Net Pension Liability
State's Proportionate Share of the Net Pension Liability Associated
with the Town of Bristol
Total

TOWN OF BRISTOL NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

## NOTE H - MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM (CONT’D):

At June 30, 2014, the Town of Bristol's proportion of the SETP Plan was $.003680 \%$.
For the year ended December 31, 2015, the Town recognized pension income of $\$ 29,987.80$ and revenue of $\$ 163,755.73$ for support provided by the State for the SETP Plan. At December 31, 2015, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred Outflows of Resources |  | Deferred Inflows of Resources |  |
| :---: | :---: | :---: | :---: | :---: |
| Differences Between Expected and Actual Experience | \$ |  | \$ | 144.00 |

| Town Contributions and Proportionate Share of Contributions |  | 27,029.00 |  |  |
| Town Contributions Subsequent to the Measurement Date |  | 42,333.80 |  |  |
| Total | \$ | 71,350.80 | \$ | 12,497.00 |

$\$ 42,333.80$ is reported as deferred outflows and resources related to pensions resulting from the Town of Bristol's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liabilities in the year ended December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

## Year ended December 31:

| 2016 | $\$ 11,348.00$ |  |
| :--- | :--- | :--- |
| 2017 | $\$ 11,348.00$ |  |
| 2018 | $\$$ | $(3,088.00)$ |
| 2019 | $\$(3,088.00)$ |  |

Actuarial assumptions - The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

|  | SETP Plan |
| :--- | :---: |
| Inflation | $3.5 \%$ |
| Salary Increases, per year | $3.5 \%-13.5 \%$ |
| Investment return, per annum, compounded annually | $7.125 \%$ |
| Cost of living benefit increases, per annum | $2.55 \%$ |

Mortality rates were based on the RP2000 Combined Mortality Table projected forward to 2015 using Scale AA.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2005 to June 30, 2010.

TOWN OF BRISTOL NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

## NOTE H - MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM (CONT’D):

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2014 are summarized in the following table:

| Asset Class |  |  | Long-Term Expected <br> Real Rate of Return |
| :--- | :---: | :---: | :---: |
|  | Target Allocation Equities | $20 \%$ | $5.2 \%$ |
| Non-US Equities | $20 \%$ |  | $5.5 \%$ |
| Private Equity | $10 \%$ | $7.6 \%$ |  |
| Real Estate | $10 \%$ | $3.7 \%$ |  |
| Infrastructure | $10 \%$ | $4.0 \%$ |  |
| Hard Assets | $5 \%$ |  | $4.8 \%$ |
| Fixed Income | $25 \%$ |  |  |
| $\quad$ Total | $100 \%$ |  |  |

Discount Rate - The discount rate used to measure the total pension liability was $7.125 \%$ for the SETP Plan. The projection of cash flows used to determine the discount rates assumed that employee contributions will be made at the current contribution rate and that contributions from participating local districts will be made at contractually required rates, actuarially determined. Based on these assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liabilities.

Sensitivity of the Town of Bristol's proportionate share of the net pension liabilities to changes in the discount rate - The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of $7.125 \%$ for the SETP Plan, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using the discount rate that is 1 percentage-point lower $6.125 \%$ for SETP Plan or 1 percentage-point higher $8.125 \%$ for SETP Plan than the current rate:

|  |  | $\mathbf{1 \%} \%$ <br> Decrease <br> $(\mathbf{6 . 1 2 5 \%})$ |  | Current <br> Discount Rate <br> $\mathbf{( 7 . 1 2 5 \% )}$ |  | $\mathbf{1 \%}$ <br> SETP Plan |  |

## NOTE K - RISK MANAGEMENT:

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. All significant losses are covered by commercial insurance. There has been no significant reduction in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

## NOTE L - INTEREST COST INCURRED:

During the current year the Town incurred interest costs totaling $\$ 19,139.00$ which was charged as an expense to various accounts.

## NOTE M - OVERLAPPING DEBT:

The Town of Bristol is situated in Lincoln County and is therefore subject to annual assessment of its proportional share of county expenses. Long-term debt outstanding in Lincoln County for which the Town of Bristol would be proportionally responsible in the event the County defaulted, is approximately $\$ 6,190,000.00$ at December 31, 2015. The Town of Bristol's share would be $12.9 \%$ of the debt, or $\$ 798,510.00$.

## NOTE N - EXPENDITURES IN EXCESS OF APPROPRIATIONS:

During the year there were overdrafts in Abatements, Marsh Island tax, and Homestead which historically have not been appropriated but rather are funded from unappropriated surplus.

## TOWN OF BRISTOL <br> NOTES TO FINANCIAL STATEMENTS <br> DECEMBER 31, 2015

## NOTE O - JOINT VENTURE:

The Towns of Bristol and South Bristol have entered into an interlocal agreement to provide for solid waste disposal facilities for the two communities. The joint venture is administered by a joint board composed of the Board of Selectmen from each town. All costs and revenues are shared in the ratio of $60 \%$ - Bristol and $40 \%$ South Bristol.

The following is a summary of the joint venture financial statements:

|  | TOTAL |  | BRISTOL'S SHARE |  |
| :---: | :---: | :---: | :---: | :---: |
| Total Assets | \$ | 319,223.17 | \$ | 191,533.91 |

| Change in Net Position | \$ | 40,697.24 | \$ | 24,418.34 |

Bristol's assessments paid to the joint venture in 2015 totaled $\$ 240,431.84$ and are recorded as expenditures.

## NOTE P - DEFERRED REVENUE:

Deferred Revenue consists of the following:

| Prepaid 2016 Taxes | $\$$ | $1,263.37$ |
| :--- | ---: | ---: |
| State Revenue Sharing |  | $19,312.73$ |
|  | $\$$ | $20,576.10$ |

## NOTE Q - NEW PRONOUNCEMENTS AND RESTATEMENT OF NET POSITION:

For the fiscal year ended December 31, 2015, the Town has elected to implement Statement No. 68 of the Governmental Accounting Standards Board - Accounting and Financial Reporting for Pensions, an amendment of GASB Statement No. 27. As a result of implementing GASB Statement No. 68, the Town has restated beginning net position in the government-wide statement of net position to account for the addition of the Town's proportionate share of the net pension liability of $\$ 35,851.00$ and deferred outflows for the Town's contributions subsequent to the measurement date of $\$ 34,661.64$, which effectively decreased the Town's net position as of January 1, 2014 by $\$ 1,189.36$.

## NOTE R - SUBSEQUENT EVENT:

Through January 22, 2016, management has reviewed events subsequent to December 31, 2015. There are no events requiring disclosure in the financial statements since the close of the fiscal year.
