## Comprehensive Plan – Population, Economy & Fishing MINUTES

Monday, September 20, 2021, at 8:00 a.m.  
New Harbor Fire Station

**Present:** Jamie Doherty, Jason Sewall, Tom Bishop, RoseAnne Holladay

We are making progress filling out our strawman outline.

We need more on description of Bristol Economy. Self-employed people, service industry, manufacturing, people on assistance. Census data may have most of what we need, also the state economist website good resource.

Should try to develop a list of businesses.

Need to understand why the school population is growing.

What is the impact of places like the Carpenter's Boast shop - seems many that who attended there have moved here?

We need to pick two formats, one for economy and one for population, to put our Information into = "Frankenstein" as Alfred called it.

We will continue to populate our strawman document and use it as a basis from which to fill out the Frankenstein's. We expect that our strawman will have more data than what we will need at the start but we may need it later so we must keep filling in our strawman.

We agreed to each select candidates for economics and population.

Next meeting 18 October 8:00
