**Conservation Hours:**

There was discussion on how to best record conservation hours, it was decided that at each committee meeting members will report their conservation time to Jess to be recorded in the minutes.

This lead into a lengthy discussion about green crabs and how to best remove them from shell fishing areas.

Jess made the committee aware of an upcoming DMR listening session being held at Lincoln Academy 4-6pm on 3/13/2024

**Other:**

- Discussion was held about population surveys that Jen would like to complete this season for conservation work.
- The committee still wants to move forward with mapping out a potential area for LPAs
