INDEPENDENT AUDITORS' REPORT

Board of Selectmen  
Town of Bristol  
Bristol, Maine

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Bristol, as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the Table of Contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town of Bristol as of December 31, 2017 and 2016, and the respective changes in financial position, and where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Bristol's basic financial statements. The introductory section and the combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## **Management's Discussion and Analysis Fiscal Year Ended December 31, 2017**

The Municipal Officers of the Town of Bristol, Maine offer the readers of Bristol's financial statements this narrative overview and analysis of its financial activities for the fiscal year ended December 31, 2017. We encourage readers to consider the information presented in conjunction with additional information furnished in the basic financial statements and the accompanying notes to those financial statements.

### **The Financial Statements**

The financial statements presented herein include all activities of the Town of Bristol, Maine using the integrated approach as prescribed by GASB (Governmental Accounting Standards Board) Statement No. 34. The government-wide financial statements present the financial picture of the Town using the accrual basis of accounting. They present governmental activities (functions that are principally supported by taxes and intergovernmental revenues) and business-type activities (functions that are intended to recover all or a significant portion of their costs through user fees and charges) separately. These statements include all assets of the Town as well as all liabilities, including long-term debt.

The fund financial statements include statements for each of the three categories of activity: governmental, business-type and fiduciary. Notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### **Statement of Net Position and Statement of Activities**

The statement of net position and statement of activities report information about the Town and its activities as a whole. Excluding infrastructure, these statements include all assets and liabilities of the Town using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's net position and changes to it. Net position is the difference between assets and liabilities, which is one way to measure the Town's financial health or financial position. Over time, increases and decreases in net position is one indicator of whether the Town's financial health is improving or deteriorating. Other factors to consider are changes in the Town's property tax base and the condition of its infrastructure. In the statement of net position and statement of activities, the Town's activities are separated as follows:

*Governmental activities:* Most of the Town's basic services are reported in this category, including public safety, public works, and general administrative services. Property taxes, excise taxes, user fees, interest income, cable television franchise fees and State and Federal grants finance these activities.

*Business-type activities:* Parks and Recreation is considered a "business-type" activity. A fee is charged to visitors to cover costs associated with admission to and use of Bristol's parks. Parks and Recreation is completely self-supporting through admissions, rental income and other user fees and donations.

### **Fund Financial Statements**

The fund financial statements provide detailed information about the most significant funds, not the Town as a whole. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Some funds are required to be established by State law or by grantor. In the Town of Bristol, these include worthy poor funds, cemetery funds and a small fund set aside for maintenance of the Rock Schoolhouse. Management, however, establishes other funds to help it control and manage money for particular purposes. At the start of fiscal year 2017 Bristol had twelve "capital reserve" accounts: the Bridge Fund, the Building Fund, the Computer Fund, the Fish Ladder Fund, the Highway Equipment Fund, the Landings and Harbors Fund, the Revaluation Fund, the Parks Fund, the Learning Center Fund, the School HVAC Fund, the Fire Truck Fund and the Facility Maintenance Fund which offsets capital expenditures for Bristol's three fire stations. In the course of the year one fund was closed out – the School HVAC Fund, on completion of the project to which it was dedicated; and another was opened, the Bristol Dam Repair Fund.

### Governmental Funds

Most of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the remaining balances at year end that are available for spending. These funds are reported using an accounting method called "modified accrual", which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed, shorter-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. The Town's governmental funds consist of the following:

*General Fund:* The general operating fund of the Town used to account for all financial resources except those required to be accounted for in another fund.

*Proprietary Funds:* When the Town charges customers for services it provides (business-type activities), these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and Statement of Activities.

*Fiduciary Funds:* The Town's fiduciary funds are held in trust for the benefit of others. These funds are not included in the government-wide financial statements and cannot be used to support general government activities and operations.

### Governmental Activities

The cost of all governmental activities in 2017 was \$8,119,961.90, an increase of \$5,158.20 in comparison to 2016. Some of the costs were paid by those who directly benefited from the programs, or by other governments and organizations that subsidized certain programs with operating grants and contributions. The Town paid for the "public benefit" portion of governmental activities with property taxes and through additional sources such as excise tax, interest revenue, state revenue sharing, cable television franchise fees and other miscellaneous revenues.

Town programs include education, general government, health and welfare, highways and bridges, protection, special assessments (County tax), and unclassified. Each program's net cost (total cost less revenues generated by activities) is presented below. The net costs show the financial burden placed on the Town's taxpayers by each of the functions:

<u>Governmental Activities</u>	<u>Net Cost 2017</u>	<u>Net Cost 2016</u>	<u>Net Cost 2015</u>
Education	\$3,823,588.35	\$3,989,021.73	\$3,908,168.61
General Government	522,910.80	541,968.91	359,045.22

Debt Service Interest	10,088.91	15,012.32	19,139.00
Total	<u>\$7,092,966.58</u>	<u>\$7,243,643.22</u>	<u>\$6,995,409.40</u>

On December 31, 2016, Bristol's net position for governmental activities totaled \$9,420,543.31. The net position as of December 31, 2017 was \$9,576,473.99, thus an increase in net position of \$155,930.68 during fiscal year 2017.

### Business-Type Activities

The cost of the Town's only proprietary fund, Bristol Parks and Recreation, was \$341,912.33. The amount paid by users of the system and raised through donations was \$408,733.74, resulting in a net gain of \$66,821.41.

### Budgets and Budgetary Accounting

The breakdown of actual expenditures for the year may be found in the Selectmen's Financial Report which is part of the 2017 Annual Report of the Town of Bristol. This could be compared with the proposed budget for 2018 to ascertain potential increases or decreases in individual budgetary items.

#### Administrative Notes

Bristol had two outstanding loans at the end of fiscal year 2017, both for fire trucks, to be paid off in 2018 and 2023. One additional loan was paid off during 2017, the Partridge Bridge Loan. The following is a comparison of total long-term debt as of December 31<sup>st</sup> of each fiscal year:

<b>FY 2017</b>	<b>FY 2016</b>	<b>FY 2015</b>
\$ 190,644.06	\$ 367,143.86	\$ 552,936.57

There was an increase in the County Tax assessment as compared with fiscal year 2016.

<b>FY 2017</b>	<b>FY 2016</b>	<b>FY 2015</b>
\$1,291,093.93	\$1,246,397.72	\$1,173,094.24

There was an increase in unappropriated surplus as compared with fiscal year 2016.

<b>FY 2017</b>	<b>FY 2016</b>	<b>FY 2015</b>
\$1,256,622.37	\$1,181,526.73	\$1,030,006.89

The mill rate was adjusted for 2017 to reflect the revaluation of property throughout the Town, completed in April 2017. The rate, which had been 8.45 per \$1,000.00 of valuation in fiscal year 2015, decreased to 7.90 per \$1,000.00 in fiscal year 2016, then changed to 6.25 per \$1,000.00 based on the updated values in 2017.

Education accounted for approximately 61% of the tax commitment followed by the County tax assessment at 20% and the Municipal budget at 16%.

Bristol's financial position continues to be very healthy. The Municipal Officers continue to pursue ways to lower the cost of providing essential services to Bristol's taxpayers while preparing for demands on infrastructure, increasing cost of education, the County tax commitment, decreased State revenues, and State and Federal mandates.

TOWN OF BRISTOL  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies of the Town of Bristol conform to generally accepted accounting principles as applicable to governmental units.

1. Financial Reporting Entity

The Town of Bristol was incorporated in 1765. The Town operates under a town meeting form of government.

In evaluating the Town of Bristol as a reporting entity, management has addressed all potential component units. The primary criteria for including a component reporting entity are the exercise of financial accountability by the Town of Bristol's municipal officials.

The Town's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is responsible for establishing Generally Accepted Accounting Principles (GAAP) for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements.

2. Basic Financial Statements - Government-Wide Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds). Both the government-wide and fund financial statements categorize primary activities as governmental. The Town's fire protection, recreation, public works, and general administrative services are classified as governmental activities.

In the government-wide Statements of Net Position, the governmental column is presented on a consolidated basis by column, and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position is reported in three parts - net invested in capital assets; restricted; and unrestricted. The Town first utilizes restricted resources to finance qualifying activities.

The government-wide Statements of Activities reports both the gross and net cost of each of the Town's functions and business-type activities (fire, public works, administrative, etc.). The functions are also supported by general government revenues (property, certain intergovernmental revenues, fines, permits, and charges, etc.). The Statements of Activities reduces gross expenses (including depreciation) by related program revenues and operating and capital grants. Program revenues must be directly associated with the function (fire, public works, etc.). Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property, intergovernmental revenues, interest income, etc.).

This government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

TOWN OF BRISTOL  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D):

3. Basic Financial Statements - Fund Financial Statements

The financial transactions of the Town are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Town:

a. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

1. General Fund:

General Fund is the general operating fund of the town. It is used to account for all financial resources except those required to be accounted for in another fund.

2. Capital Projects:

Capital Projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment.

3. Fiduciary Funds:

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support town programs. The reporting focus is on net assets and changes in net assets and is reported using accounting principles similar to proprietary funds.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASB No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category) for the determination of major funds.

The Town's fiduciary funds are presented in the fiduciary fund financial statements. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

4. Proprietary Fund:

The Proprietary Fund is the fund used to account for all financial resources relating to the Parks and Recreation Department. The generally accepted accounting principles applicable are those similar to business in the private sector.

TOWN OF BRISTOL  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D):

4. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied:

a. Accrual:

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

b. Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e. both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

5. Financial Statement Amounts

a. Cash and Cash Equivalents:

The Town has defined cash and cash equivalents to include cash on hand, demand deposits, and cash with fiscal agents. Statutes authorize the Treasurer of the Town, as directed by the municipal officers, to invest all municipal funds, including reserve and trust funds, to the extent that the terms of the instrument, order, or article creating the fund do not prohibit the investment in financial institutions as described in Section 5706 MRSA and securities as described in Sections 5711 through 5717 MRSA.

b. Capital Assets:

Capital assets purchased or acquired with an original cost of \$2,000.00 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	20-50 Years
Machinery and Equipment	5-10 Years
Improvements	10-20 Years
Other Infrastructure	10-50 Years

TOWN OF BRISTOL  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D):

5. Financial Statement Amounts (Cont'd)

c. Revenues:

Substantially, all governmental fund revenues are accrued. Property taxes are billed and collected within the same period in which the taxes are levied. In applying GASB No. 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

d. Expenditures:

Expenditures are recognized when the related fund liability is incurred.

e. Deferred Inflows and Outflows of Resources:

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until that time. The deferred outflows relate to the net pension liability, which include the Town's contributions subsequent to the measurement date, which is recognized as a reduction of the net pension liability in the subsequent year. They also include changes in assumptions, differences between expected and actual experience, and changes in proportion and differences between Town contributions and proportionate share of contributions, which are deferred and amortized over the average expected remaining service lives of active and inactive members in the plan.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The deferred inflows relate to the net pension liability, which include the differences between expected and actual experience and changes in proportion and differences between Town contributions and proportionate share of contributions, which is deferred and amortized over the average expected remaining service lives of active and inactive members in the plan. They also include the net difference between projected and actual earnings on pension plan investments, which is deferred and amortized over a five-year period.

f. Use of Estimates:

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D):

5. Financial Statement Amounts (Cont'd)

g. Fund Balance:

In accordance with GASB Statement No. 54, the Town employs terminology and classifications for fund balance items as follows:

Nonspendable fund balances includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact.

Restricted fund balances represent those portions of fund equity that have externally enforceable legal restrictions.

Committed fund balances are amounts that can be used only for specific purposes because of a formal action taken by town government. The fund balances in the Capital Projects Fund are in this category.

Assigned fund balances are amounts that the Town intends to use for specific purposes. The Board of Selectmen approved carryovers are included in assigned fund balances.

Unassigned fund balances are all amounts in the General Fund that are not assigned to another category. Only the General Fund can have an unassigned fund balance.

NOTE B - CASH:

Cash

The Town's cash is categorized to give an indication of the level of risk assumed by the Town at year end. These Categories are defined as follows:

Category #1 - Insured or collateralized with securities held by the Town or by its agent in the Town's name.

Category #2 - Collateralized with securities held by the pledging financial institution's trust department or agent in the Town's name.

Category #3 - Uncollateralized (This includes any bank balance that is collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the Town's name.)

At December 31, 2017 cash consisted of:

NOTE E - GENERAL FUND BUDGET:

The Town operates on a net budget as compared with a gross budget. All revenues are not estimated, but are credited to the particular operating account. Certain revenues are dedicated for particular purposes by vote of the townspeople at the annual town meeting or at special town meetings.

At the annual town meeting, held in March of each year, the townspeople vote on various articles on which amounts for appropriations have been recommended by the Board of Selectmen and/or the budget committee.

NOTE F - ASSIGNED FOR OTHER PURPOSES:

Historically, the townspeople vote to carry certain departmental unexpended balances forward to the following year for expenditure. This is usually in lieu of additional appropriations in any particular account.

General Government	\$ 43,032.36
Education	1,061,961.56

NOTE G - REVENUE RECOGNITION - PROPERTY TAXES:

The Town's property tax for the current year was levied July 6, 2017 on the assessed value listed as of April 1, 2017 for all taxable real and personal property located in the Town. Taxes were due September 15, 2017 with interest at 7% per annum or part thereof commencing September 16, 2017.

Tax liens are filed against delinquent real estate taxpayers after eight months but within one year of the original tax commitment. If the tax, interest, and costs have not been paid eighteen months after the filing of a lien certificate then the lien is automatically foreclosed.

TOWN OF BRISTOL  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2017

NOTE G - REVENUE RECOGNITION - PROPERTY TAXES (CONT'D):

The National Council on Governmental Accounting (N.C.G.A.) Interpretation No. 3 requires that property tax revenue be recognized only to the extent it will be collected within sixty days following the year end. The deferred tax revenue shown on the balance sheet represents property taxes not expected to be collected within sixty days after the year end.

Property taxes are recognized when they become available. Available includes those taxes expected to be collected within sixty days after year end as stated above.

NOTE H - MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM:

**Summary of Significant Accounting Policies**

**Pensions** - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows for resources related to pensions, and pension expense, information about the fiduciary net position of the Maine Public Employees Retirement System State Employee and Teacher Plan (SET Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Maine Public Employees Retirement System**

*General Information about the Pension Plan*

**Plan Description** - Teaching-certified employees of the Town of Bristol are provided with pensions through the Maine Public Employees Retirement System State Employee and Teacher Plan (SET Plan), cost-sharing multiple-employer defined benefit pension plans, administered by the Maine Public Employees Retirement System (MPERS). Benefit terms are established in Maine statute. MPERS issues a publicly available financial report that can be obtained at [www.maineopers.org](http://www.maineopers.org).

**Benefits provided** - The SET Plan provides defined retirement benefits based on members' average final compensation and service credit earned as of retirement. Vesting (i.e. eligibility for benefits upon reaching qualification) occurs upon the earning of five years of service credit. In some cases, vesting occurs on the earning of one year of service credit immediately preceding retirement at or after normal retirement age. For SET members, normal retirement age is 60, 62, or 65. The normal retirement age is determined by whether a member had met certain creditable service requirements on specific dates, as established by statute. The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years of service credit is reduced by a statutorily prescribed factor for each year of age that a member is below her/his normal retirement age at retirement. MPERS also provides disability and death benefits, which are established by statute.

**Contributions** - Employee contribution rates are defined by law or Board rule and depend on the terms of the plan under which an employee is covered. Employer contributions are determined by actuarial valuations. The contractually required contribution rates are actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

TOWN OF BRISTOL  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2017

NOTE H - MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM (CONT'D):

**SET Plan** - Maine statute requires the State to contribute a portion of the Town's contractually required contributions. Employees are required to contribute 7.65% of their annual pay. The Town of Bristol's contractually required contribution rate for the year ended December 31, 2017 was 13.38% of annual payroll of which 3.36% - 3.97% of payroll was required from the Town and \$150,170.34 was required from the State. Contributions to pension plan from the Town was \$53,970.05 for the year ended December 31, 2017.

***Pension Liabilities, Pension Expense, and Deferred Outflows and Deferred Inflows of Resources Related to Pensions***

The net pension liabilities were measured as of June 30, 2016 and the total pension liabilities used to calculate the net pension liabilities were determined by actuarial valuations as of that date. The Town's proportion of the net pension liabilities were based on projections of the Town's long-term share of contributions to the pension plans relative to the projected contributions of all participating School Administrative Units and the State (SET Plan), actuarially determined.

**SET Plan** - At June 30, 2017, the Town reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the Town. The amount recognized by the Town as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the Town were as follows:

Town of Bristol's Proportionate Share of the Net Pension Liability	\$ 50,244.00
State's Proportionate Share of the Net Pension Liability Associated with the Town of Bristol	<u>2,032,212.00</u>
Total	<u><u>\$ 2,082,456.00</u></u>

At June 30, 2017, the Town of Bristol's proportion of the SET Plan was .001778%.

For the year ended December 31, 2017, the Town recognized pension expense of \$8,371.89 and revenue of \$150,170.34 for support provided by the State for the SET Plan. At December 31, 2017, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences Between Expected and Actual Experience	\$ 972.00	\$ 95.00
Changes in Assumptions		1,290.00
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	16,044.00	6,574.00
Changes in Proportion and Differences between Town Contributions and Proportionate Share of Contributions	9,822.00	4,421.00
Town Contributions Subsequent to the Measurement Date	74,944.78	
Total	<u><u>\$ 101,782.78</u></u>	<u><u>\$ 12,380.00</u></u>

TOWN OF BRISTOL  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2017

NOTE H - MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM (CONT'D):

\$74,944.78 is reported as deferred outflows and resources related to pensions resulting from the Town of Bristol's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liabilities in the year ended December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**Year ended December 31:**

2017	\$ 1,468.00
2018	\$ 5,983.00
2019	\$ 4,519.00
2020	\$ 2,488.00

**Actuarial assumptions** - The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>SET Plan</u>
Inflation	2.75%
Salary Increases, per year	2.75% - 14.5%
Investment return, per annum, compounded annually	6.875%
Cost of living benefit increases, per annum	2.20%

Mortality rates were based on the RP2014 Total Dataset Healthy Annuitant Mortality Table for Males and Females.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2005 to June 30, 2010.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
US Equities	20%	5.7%
Non-US Equities	20%	5.5%
Private Equity	10%	7.6%
Real Estate	10%	5.2%
Infrastructure	10%	5.3%
Hard Assets	5%	5.0%
Fixed Income	25%	2.9%
Total	100%	

TOWN OF BRISTOL  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2017

NOTE H - MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM (CONT'D):

**Discount Rate** - The discount rate used to measure the total pension liability was 6.875% for the SET Plan. The projection of cash flows used to determine the discount rates assumed that employee contributions will be made at the current contribution rate and that contributions from participating local districts will be made at contractually required rates, actuarially determined. Based on these assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liabilities.

**Sensitivity of the Town of Bristol's proportionate share of the net pension liabilities to changes in the discount rate** - The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 6.875% for the SET Plan, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using the discount rate that is 1 percentage-point lower 5.875% for SET Plan or 1 percentage-point higher 7.875% for SET Plan than the current rate:

SET Plan	1% Decrease (5.875%)	Current Discount Rate (6.875%)	1% Increase (7.875%)
Town of Bristol's Proportionate Share of the Net Pension Liability	\$ 80,453.00	\$ 50,244.00	\$ 25,065.00

**Pension Plan Fiduciary Net Position** - Detailed information about the pension plan's fiduciary net position is available in the separately issued MPERS financial report.

**Payables to the Pension Plan** - none as of December 31, 2017.

**Changes of Benefit Terms** - None

**Changes of Assumptions**

The assumption changes for June 2015 to June 2016 valuation are as follows:

**Actuarial Assumption**

	JUNE 2015	JUNE 2016
Inflation	3.5%	2.75%
Salary Increase	3.5% - 13.5%	2.75% - 14.5%
Investment Return	7.125%	6.875%
Cost of Living	2.55%	2.20%

**Rate of Return - Long-Term Expected Real Rate of Return**

	JUNE 2015	JUNE 2016
US Equities	5.2%	5.7%
Real Estate	3.7%	5.2%
Infrastructure	4.0%	5.3%

NOTE K - RISK MANAGEMENT:

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. All significant losses are covered by commercial insurance. There has been no significant reduction in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

NOTE L - INTEREST COST INCURRED:

During the current year the Town incurred interest costs totaling \$10,088.91 which was charged as an expense to various accounts.

NOTE M - OVERLAPPING DEBT:

The Town of Bristol is situated in Lincoln County and is therefore subject to annual assessment of its proportional share of county expenses. Long-term debt outstanding in Lincoln County for which the Town of Bristol would be proportionally responsible in the event the County defaulted, is approximately \$5,544,305.00 at December 31, 2017. The Town of Bristol's share would be 13.4% of the debt, or approximately \$742,937.00.

NOTE N - EXPENDITURES IN EXCESS OF APPROPRIATIONS:

During the year there were overdrafts in Abatements and Marsh Island tax which historically have not been appropriated but rather are funded from unappropriated surplus. The Lower Pemaquid Watershed Study has an overdraft which will be covered by grant revenues in 2018.

TOWN OF BRISTOL  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2017

NOTE O - JOINT VENTURE:

The Towns of Bristol and South Bristol have entered into an interlocal agreement to provide for solid waste disposal facilities for the two communities. The joint venture is administered by a joint board composed of the Board of Selectmen from each town. All costs and revenues are shared in the ratio of 60% - Bristol and 40% - South Bristol.

The following is a summary of the joint venture financial statements:

	TOTAL	BRISTOL'S SHARE

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies of the Town of Bristol School Department's Schedule of Expenditures of Federal Awards conforms to generally accepted accounting principles as applicable to governmental units. The modified accrual basis of accounting is followed. This method of accounting is defined as the basis of accounting under which expenditures are recorded as incurred, and revenues are recorded when received in cash except for material and/or available revenues which are accrued to reflect properly the assessments levied and the revenues earned.

NOTE 2 - DONATED COMMODITIES:

Non-monetary assistance is reported in the schedule at the fair market value of the commodities consumed.

NOTE 3 - INDIRECT COST RATE:

Town of Bristol School Department has elected not to use the 10% de minimus indirect cost rate allowed under uniform guidance.
